Anglès

Criteris específics de correcció

Model 1

Amb aquesta prova es pretén avaluar la competència receptiva i productiva en llengua anglesa. A la prova s'exigiran els continguts que figuren al temari.

La prova de Llengua Anglesa consta de quaranta preguntes: 37 són d'elecció múltiple (*multiple choice*) i s'han de respondre en un full òptic, i tres preguntes són de tipus obert i s'han de redactar en llengua anglesa.

La prova consta de quatre parts ben diferenciades. La primera part avalua la comprensió lectora i consta d'un text en llengua anglesa d'unes dues-centes paraules. En aquest apartat el candidat haurà de respondre a un total de cinc preguntes que tindran a veure amb la comprensió del text. De les cinc preguntes, dues seran preguntes d'elecció múltiple (d'un punt, sobre 40, cada una) i les altres tres preguntes seran de tipus obert (d'un punt, sobre 40, cada una). Les tres preguntes de tipus obert s'hauran de respondre obligatòriament en llengua anglesa (entre deu i trenta paraules cada una).

La segona, tercera i quarta part de l'examen són tipus test. La segona part de la prova consta d'un text en forma de diàleg i cinc preguntes de completar espais buits de resposta d'opció múltiple. La tercera part avalua la fonètica en llengua anglesa i consta de cinc preguntes de resposta d'opció múltiple. La quarta part de la prova avalua el coneixement gramatical en llengua anglesa i consta de vint-i-cinc preguntes de resposta d'opció múltiple.

Per superar la prova satisfactòriament s'han d'encertar vint preguntes. Les respostes incorrectes o en blanc no descompten del total de la nota.

A. READING COMPREHENSION

Read the passage carefully. Then decide which of the following options is best. Only one option in each question reflects exactly the meaning of the text.

American people eat a lot of fast food, which is hardly surprising. The USA may not have invented the hot-dog or the hamburger, but it was responsible for selling them back to the world. Now there is hardly a corner of the globe without a McDonald's, Burger King, Kentucky Fried Chicken or the like.

And it seems that fast food is getting even more popular. Why is this? Certainly it's much easier to get a take-away, have a pizza delivered, or pop a ready-cooked meal in the microwave than to slave for hours over a hot stove. And there is the added bonus that you don't have to do much washing up, if any, afterwards.

It seems that people's attitudes towards food and eating have changed. Eating is seen more and more as something you do while you are doing something else. People don't stop for meals any more. You see more and more people eating on the subway, in the street, or at their computer. And the evening meal is often eaten from a tray in front of the TV. It's sad really, but that's the way it is.
